

MAKING YOUR VOICE HEARD

You are a voter. You have voted for those you believe best represent your thoughts. Now, you must let those elected know how you feel about legislation that is significant to equity for women and girls.

EVERYONE should call and/or visit their legislators. It is the most effective way to tell those elected how you feel about AAUW issues. Politicians know there is always next year. They want your vote. So however you do it-Make Your Voice Heard!
